IRYNA BETANCOURT
SOFTWARE ENGINEER

SKILLS

- Swift
- Xcode
- CSS / SASS
- HTML
- SQL

- JavaScript
- Ember
- React
- Node
- jQuery, Bootstrap

- Ruby, Rails
- Python
- RESTful API
- Express
- Heroku

- MongoDB
- Mongoose
- Handlebars
- AWS
- Github

EXPERIENCE

2018-2019 **IOS Development. Learning and applying the principles of Swift and Objective-C**
SugarInLife. IOS quiz app about users' sugar sources, created with Swift 4.2 and Xcode 10.

2018 **General Assembly | Web Development Immersive**
During this 12-week, 480-hour career accelerator, I produced several full-stack projects, worked individually and on a team. Covered front- and back-end programming fundamentals and trained in a variety of modern programming languages and technologies. Built RESTful APIs and utilized Git/GitHub for version control.

- *Sugar Tracker in React and a version in JavaScript*. This full-stack app is aimed to help count teaspoons of consumed sugar per day. I used JavaScript, React.js, CSS, HTML./ Ruby on Rails.
- *Regis's Arts*. Inspired by the work of a local artist, I created 2 versions of a full-stack application using JavaScript, Handlebars, jQuery, Node.js/Javascript, Ember.js for the frontend and Ruby on Rails for the backend. Users can register, sign in, create, update, read or delete their reservations. I implemented a one-to-many relationship to keep each user's information private.
- *Bucket List*. Users can create and track their life goals in an easy-to-use way. New technologies used include Express, Node.js, Mongoose, and MongoDB for building the API. I gained experience pair programming and collaborating with team members.

2014-2015 **The Inn at 359 Main | Manager**
Fully managed a 19 room boutique inn. Greeted visitors and guests, replied to emails. Checked reservations. Kept track of the budget. Coordinated housekeepers and verified cleanliness.

2013 **Tour Guide | Interpreter**
Introduced foreign visitors to the Belarussian culture.

EDUCATION

2018 **General Assembly**
Certificate in Web Development Immersive.

2012 **Minsk State Linguistics University**
Bachelor's Degree in Linguistics.
Russian, Belarusian, Spanish, German.
